Race report

Thirty three starters headed off for the first 9/11 sponsored scratch race starting at Woodbridge School and heading South into an increasing head wind and back with a diminishing tail breeze. The course could be described as undulating. Some of us had other words for the never ending hills! Neil Davidson made up for his fifth place by being drawn out for the TV spot prize. Ride of the day was shared between Chris Riley and Bill Watts.

The sorting out process with the transponders seems to be coming to an end with the sign on process working smoothly after last week's problems. Not all was plain sailing though with fastest time winner (Mark Bowden) not recording across the finish line so a guess of his time was made to put him on the board as the race record holder to go along with all his other ones.

Thanks to the marshalls on the day - organiser Scott Miller and turn marshals Phil Papps and Dennis Sharman. Next week we have Leanne Riddell, Dylan Forbes and Peter Podolak for the Sealed handicap. For those who don't know this race it is 64kms with no racing for the first 19kms. This gets the riders to the bottom of Cole Hill where the flag is dropped and racing starts. The sealed handicap then works by reducing the riders overall time by their handicap to determine the winner. This is usually the rider who can hang on to better riders for longer than others.
